STATEMENT OF QUALIFICATIONS

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312 and have the specific qualifications based on education, training, and experience to assess the nature, history, and setting of real property. We have developed and performed "all appropriate inquiries" in conformance with the standards and practices set forth in 40 CFR Part 312.

Chase Farnsworth IV, REM
Environmental Scientist II

Cole Farnsworth
Environmental Technician

EXECUTIVE SUMMARY

At the request of Martinsville-Henry Economic Development Corporation (hereafter the “User”), and in accordance with 40 CFR Part 312 and ASTM International (ASTM) Standard E 2247-16 (*Standard Practice for Phase I Environmental Site Assessments: Phase I Environmental Site Assessment Process for Forestland or Rural Property*), Timmons Group conducted a Phase I Environmental Site Assessment (ESA) of approximately 726 acres located off Spencer Road and Reservoir Road in Henry County, Virginia, and Rockingham County, North Carolina (hereafter the “Subject Property” or “Site”). Based on our understanding, the Site is under evaluation for continued industrial development.

The assessment was performed to identify Recognized Environmental Conditions (RECs) on the Subject Property or adjoining properties based on a review of reasonably available environmental resource information and/or site observations. The assessment was also performed to allow the User to qualify for landowner liability protections, including the Bona Fide Prospective Purchaser liability protection, available under federal and state law. RECs are defined by ASTM Standards as “*the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property due to release to the environment; under conditions indicative of a release to the environment or under conditions that pose a material threat of future release.*”

Site Description

The Subject Property is comprised of approximately 726 acres located off Spencer Road and Reservoir Road in Henry County, Virginia, and Rockingham County, North Carolina. The Site consists mainly of undeveloped, cleared land and forested areas with areas of active construction.

Environmental Conditions on the Subject Property

The results of the Phase I ESA did not identify any RECs in connection with the Subject Property, as defined by ASTM Standard E 2247-16.

Environmental Conditions on Adjoining Properties

The Subject Property is bordered to the north by forested areas, private residences, and Marrowbone Reservoir; to the east by the Norfolk Southern railroad, Greensboro Road (U.S. 220), private residences, and forested areas; to the south by the Norfolk Southern railroad, Greensboro Road (U.S. 220), private residences, and forested areas; and to the west by Spencer Road, forested areas, and private residences. As a result of site inspection and a review of resource data, RECs were not identified for the adjoining properties as defined by ASTM Standard E 2247-16.

Data Gaps

No significant data gaps were encountered during the completion of this Phase I ESA.

Conclusions and Recommended Response Actions

Timmons Group completed a Phase I ESA of approximately 726 acres located off Spencer Road and Reservoir Road in Henry County, Virginia, and Rockingham County, North Carolina. Based on the results, RECs were not identified for the Subject Property or adjoining properties as defined by ASTM Standard E 2247-16. Therefore, Timmons Group recommends no further action to meet due diligence requirements.

1.0 INTRODUCTION

1.1 Purpose and Scope of Services

This Phase I ESA was conducted in accordance with 40 CFR Part 312 and ASTM Standard E 2247-16. The assessment was performed to identify RECs based on a review of reasonably available environmental resource information and/or site observations indicating evidence of a release or the threat of a release of hazardous substances or petroleum products on or in the vicinity of the Site. The assessment was also performed to allow the User to qualify for any landowner liability protections, including the Bona Fide Prospective Purchaser liability protection, available under federal and state law. RECs are defined by ASTM as “*the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property due to release to the environment; under conditions indicative of a release to the environment or under conditions that pose a material threat of future release.*” The term includes “*hazardous substances or petroleum products even under conditions in compliance with laws.*” The term is not intended to include “*de minimis conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate government agencies.*”

The purpose of this report is to provide the User with a Phase I ESA of approximately 726 acres located off Spencer Road and Reservoir Road in Henry County, Virginia, and Rockingham County, North Carolina. The scope of work for preparing this assessment included:

- reviewing reasonably available federal and state environmental regulatory records,
- site reconnaissance,
- interviews,
- reviewing and evaluating reasonably available historical maps and data regarding the Subject Property and immediate vicinity, and
- data evaluation and the completion of an ASTM Standard E 2247-16 Phase I ESA.

1.2 Limitations and Exceptions of the Assessment

This report was prepared exclusively for the User, along with affiliated entities, successors and/or assigns in accordance with the agreed upon scope of services. The conclusions provided in this report are based only on the information contained in this document. Additional information with respect to this Site or nearby sites, which was not available at the time this assessment was prepared, could modify the conclusions stated herein. This report has been prepared in accordance with ASTM Standard E 2247-16; no other warranty, expressed or implied, is made as to the professional advice provided under the terms of the agreement between the User and Timmons Group, as discussed below.

Timmons Group was retained to complete a Phase I ESA to evaluate the presence of RECs and/or areas of potential environmental concern, either on-site or on the adjoining properties that could affect the environmental integrity of the Subject Property. Furthermore, this Phase I ESA is only valid up to 180 days prior to the date of acquisition. No estimates, plans or specifications, soil and/or groundwater testing, asbestos inspection, lead-based paint inspection, geotechnical or remedial recommendations or activities other than described herein were included under the scope of services.

1.3 Special Terms and Conditions

No special terms or conditions were applied to the completion of this Phase I ESA.

1.4 Methodology Used

This Phase I ESA was completed in conformance with the scope and limitations of ASTM Standard E 2247-16. Timmons Group reviewed reasonably available federal and state environmental regulatory records, historical maps and data regarding the Subject Property and immediate vicinity. The User (i.e.,

the party for whom this Phase I ESA was prepared), current landowner and government officials were contacted, as necessary, to obtain additional information pertaining to the Subject Property. Site reconnaissance was conducted by Chase Farnsworth IV of Timmons Group on October 1, 2019, to determine if any RECs and/or areas of potential environmental concern were present on the Subject Property.

1.5 User Reliance

This Phase I ESA (the "Report") was prepared exclusively for the User, their affiliated entities, and successors and/or assigns, and reliance is accordingly extended to designated third parties. All limitations and conditions associated with the Report therefore remain in effect and transfer along with this authorization of reliance. Reliance is subject to the scope of work and the terms and conditions under which the Report was prepared for the User.

2.0 SUBJECT PROPERTY AND VICINITY DESCRIPTION

2.1 General Site Description

The Subject Property is comprised of approximately 726 acres located off Spencer Road and Reservoir Road in Henry County, Virginia, and Rockingham County, North Carolina (Appendix 1). The details of the Site, as specified by Henry County and Rockingham County GIS and property records, are presented below with further details provided in Appendix 2.

Property/Parcel ID	County, State	Acreage	Zoning
197310001	Henry County, VA	81.955	A1 – Agricultural
213190012	Henry County, VA	497.273	I1 – Industrial
213190031	Henry County, VA	117.918	A1 – Agricultural
101745	Rockingham County, NC	6.840	Residential
101746	Rockingham County, NC	2.120	Residential
101747	Rockingham County, NC	5.090	Residential
101748	Rockingham County, NC	6.760	Residential
101775	Rockingham County, NC	7.840	Residential

2.2 Current Use of the Subject Property

The Subject Property consists mainly of undeveloped, cleared land and forested areas with areas of active construction.

2.3 Description of Site Structures

A large industrial building is currently under construction while the Commonwealth Centre For Advanced Training is fully constructed on the Site.

2.4 Site Utilities

The Site is currently connected, or will soon be connected, to electric, water, and telecommunications services.

2.5 Current Use of Adjoining Properties

Given the expanse of the Site, the adjoining properties are summarized generally below. Of note, Reservoir Road transects the eastern area of the Subject Property from the north and south.

Adjoining Properties	
North:	Forested areas, private residences, and Marrowbone Reservoir
East:	The Norfolk Southern railroad, Greensboro Road (U.S. 220), private residences, and forested areas
South:	The Norfolk Southern railroad, Greensboro Road (U.S. 220), private residences, and forested areas
West:	Spencer Road, forested areas, and private residences

3.0 PHYSICAL SETTING

3.1 Regional Geology

The Subject Property is located in the Piedmont Physiographic Province of Virginia and North Carolina. The Piedmont Physiographic Province is underlain by crystalline bedrock formations that exhibit a high degree of geologic complexity; in addition, the region is characterized by the bedrock being overlain by a mantle of residual soil and saprolite. Saprolite is the product of in-situ chemical weathering of the crystalline bedrock that often retains the fabric, texture and structure of the parent rock. Saprolite is typically thickest on hilltops and in stream valleys and thinnest or absent altogether on hillsides (Legrand, 1988).

Within the Piedmont Physiographic Province, the underlying saprolite formations either serve: 1) as a hydrostatic unit from which groundwater can be withdrawn directly, or 2) as a source of recharge for underlying fractured bedrock aquifer systems.

According to the 1993 Geologic Map of Virginia and the 2004 Generalized Geologic Map of North Carolina, the Subject Property is underlain by the formations detailed below.

Fork Mountain Formation – Proterozoic Z-Cambrian (map label Zfm) – Light- to medium-gray, fine- to medium grained, polydeformed and polymetamorphosed porphyroblastic aluminosilicate-mica schist, interlayered with medium-gray irregularly-layered garnetiferous biotite gneiss, migmatitic in part; calcsilicate granofels; amphibolite; rare white marble; and, coarse calc-quartzite lenses. Complex schistosity, multiple crenulation cleavages, and partly-retrograded, polymetamorphic aluminosilicate and garnet porphyroblasts are diagnostic of Fork Mountain schists.

Bassett Formation – Biotite gneiss and granite gneiss (map label Zbg) – Light-gray to black-and-white, fine to medium-grained, leucocratic biotite gneiss that is mostly segregation-layered, but locally is a medium-grained quartzfeldspar granofels. Contains interlayers of muscovite-biotite schist, quartz schist, and epidote quartzite.

Rich Acres Formation – Cambrian (map label ra) – Rich Acres Formation (Conley and Henika, 1973; Conley, 1985). Dikes, sills, and irregularly-shaped plutons of dark-greenish-gray, medium-grained, locally porphyritic, biotite-hornblende gabbro.

3.2 Regional Hydrogeology

The 2016 U.S. Geological Survey (USGS) Price, North Carolina, 7.5 Minute Topographic Quadrangle Map was reviewed to extrapolate groundwater characteristics in the area of the Subject Property based on topographical expressions (Appendix 1). Groundwater was resultingly determined to generally flow toward the central area of the Site into Patterson Branch, which then flows north into the Marrowbone Reservoir.

3.3 Topography

According to the 2016 USGS Price, North Carolina, 7.5 Minute Topographic Quadrangle Map and visual observations, topography varies greatly across the Site with approximate elevations ranging from 800 to 1,000 feet above mean sea level (Appendix 1).

3.4 Soils

The U.S. Department of Agriculture Natural Resources Conservation Service Web Soil Survey was utilized by Timmons Group in preparing an environmental inventory map to detail the underlying soil units of the Subject Property. The main underlying soils are classified as Clifford sandy loam with 25-45% slopes, Clifford sandy loam with 15-25% slopes, and Clifford sandy loam 7-15% slopes with smaller soil units detailed in Appendix 1.

3.5 Floodplain

The Federal Emergency Management Agency National Flood Hazard Layer (NFHL) was utilized to determine if the Subject Property is located within a floodplain. According to the NFHL, the Subject Property is located in Zone X which is defined as outside of the 0.2% annual chance flood (Appendix 1).

3.6 Wetlands

The National Wetland Inventory (NWI) dataset was utilized to denote areas of potential wetlands. The NWI depicts several stream channels transecting the Site (Appendix 1).

4.0 SITE RECONNAISSANCE

Site reconnaissance was conducted by Chase Farnsworth IV of Timmons Group on October 1, 2019, which included observing the Site boundaries and property interior to document existing conditions and identify RECs and/or areas of potential environmental concern associated with the Subject Property and/or adjoining properties. Photographs documenting the site inspection are included as Appendix 3.

4.1 Hazardous Substances and/or Petroleum Products

No hazardous substances or petroleum products were observed on the Subject Property.

4.2 Storage Tanks

No storage tanks were observed on the Site.

4.3 Poly-Chlorinated Biphenyls (PCBs)

Several pole-mounted electrical transformers in good condition are located sparsely across the Site. Most of the transformers are labeled with Non-PCB placards and none show any sign of leakage. Given the area of potential effect from potential failure, the transformers do not represent RECs.

4.4 Heating and Cooling

An air conditioning unit is mounted on the side of a construction trailer while the newly built structures utilize roof-mounted air conditioning units. Given the nature and usage, these units do not represent RECs.

4.5 Stained Soil/Pavement and/or Stressed Vegetation

No stained soil/pavement and/or stressed vegetation were observed on the Site.

4.6 Pits, Ponds and/or Lagoons/ Pools of Liquids

Several stormwater management ponds and one (1) freshwater pond are present on the Site; such features do not represent RECs.

4.7 Odors

Strong, pungent, or noxious odors were not detected on the Site.

4.8 Drains and/or Sumps

Drains and/or sumps were not identified on the Subject Property.

4.9 Railroad Tracks

Railroad tracks do not transect the Site.

4.10 Wells

Non-potable water wells are present on the Site but do not represent RECs based on nature and usage.

4.11 Discarded/Solid Waste Materials

Large piles of solid waste are present in several areas of the Site that largely consist of building materials, crushed rock and concrete; the aforementioned solid waste qualifies as de minimis material which does not represent a REC to the Subject Property.

4.12 Adjoining Properties

As a result of site reconnaissance and a review of resource data, the following environmental conditions were noted for the adjoining properties:

- Hazardous Substances and/or Petroleum Products
No hazardous substances and/or petroleum products were observed on the adjoining properties.
- Storage Tanks
Several ASTs are present on the adjoining Chesapeake Custom Chemical Corporation facility on Reservoir Road. However, based on its regulatory status and condition, the property does not represent a REC.
- Poly-Chlorinated Biphenyls (PCBs)
Several electrical transformers are located along the peripheral roadways that are not labeled with non-PCB placards. However, based on the expected area of potential effect from failure, the transformers do not represent RECs.
- Heating and Cooling
The immediately adjoining properties utilize electrically powered window- or ground-mounted units and are likewise suspected of utilizing electrically powered heating systems. Neither represents a REC to the Subject Property.
- Stained Soil/Pavement and/or Stressed Vegetation
Petroleum-like staining is present on the paved surfaces of the adjoining roadways; however, such staining is considered typical and does not represent a REC.
- Pits, Ponds and/or Lagoons/ Pools of Liquid
Several freshwater ponds are present on the adjoining properties; such features do not represent RECs.
- Odors
Strong, pungent, or noxious odors were not found to be emanating from the adjoining properties.
- Drains and/or Sumps
No drains or sumps were observed on the adjoining properties.
- Railroad Tracks
A Norfolk and Southern railroad is present along the southern boundary of the Subject Property. As detailed in Section 6.5, the railroad tracks were the subject of the Phase II ESA previously completed for the Site and were found to not represent a REC.
- Wells
Groundwater supply wells may be utilized on the adjoining properties given the properties' residential and agricultural usage. However, based on usage and/or distance in conjunction with proposed usage of the Subject Property, the wells do not represent RECs.

- Discarded/Solid Waste Materials
A small volume of solid waste is present on the adjoining properties and roadways that largely consists of general household debris; such solid waste qualifies as de minimis material which does not represent a REC to the Subject Property.

5.0 REGULATORY RECORDS REVIEW

Timmons Group retained Environmental Risk Information Services (ERIS) to complete a computer regulatory database search to identify current and/or past uses of the Subject Property, and surrounding properties, that may have contributed to a release, or presents the material threat of a release, of hazardous substance or petroleum products, that has or may have environmentally impacted the Subject Property (Appendix 4). Timmons Group reviewed the ASTM-specified databases below along with proprietary databases maintained by ERIS.

Federal Databases	Search Radius	Government Publication Date*
NPL (National Priority List)	1 mile	06/11/2019
SEMS (Superfund Enterprise Management System)	0.5 mile	06/11/2019
SEMS-ARCHIVE (Superfund Enterprise Management System Archive)	0.5 mile	06/11/2019
RCRA CORRACTS (Resource Conservation and Recovery Act – Corrective Action Report)	1 mile	06/03/2019
RCRA-TSD (RCRA – Treatment, Storage and Disposal)	0.5 mile	06/03/2019
RCRA-LQG/SQG (RCRA – Large/Small Quantity Generators)	0.25 mile	06/03/2019
RCRA-CESQG (RCRA – Certified Exempt Small Quantity Generators)	0.25 mile	06/03/2019
Federal Engineering Controls	0.5 mile	09/20/2018
Federal Institutional Controls	0.5 mile	09/20/2018
ERNS (Emergency Response Notification System)	Subject Property Only	03/21/2019
Federal Brownfields	0.5 mile	01/11/2019
State Databases	Search Radius	Government Publication Date*
SWF/LF (Solid Waste Facilities and Landfills)	0.5 mile	03/13/2019
LST (Leaking Petroleum Storage Tanks)	0.5 mile	07/30/2019
UST (Underground Storage Tanks)	0.25 mile	07/30/2019
AST (Aboveground Storage Tanks)	0.25 mile	07/30/2019
VRP (Voluntary Remediation Program)	0.5 mile	07/16/2019

Note: The UST and AST databases were reviewed beyond the ASTM standards to include properties within 0.25 mile.
 * Government Publication Date = Per Appendix: Database Descriptions of the ERIS Database Report, the extent of historical information varies with each database and current information is determined by what is publicly available at the time of update per ASTM standards (ASTM Standard E 1527-13/2247-16, Section 8.1.8).

5.1 Federal Database Review

According to the ERIS Database Report, the Subject Property and adjoining properties are not identified on any of the reviewed federal databases (Appendix 4).

5.2 State Database Review

The ERIS Database Report did not identify the Subject Property on any of the reviewed state databases (Appendix 4). One (1) LST, four (4) UST, and one (1) Delisted Tank listing(s) are identified in the vicinity of the Site and within the specified search radii. But based on regulatory status, expected groundwater flow, and operational condition, the listings are not expected to impact the Site and therefore do not represent potential RECs.

5.3 *Supplementary Database Review*

According to the ERIS Database Report, the Subject Property is not identified on any of the reviewed supplementary databases (Appendix 4). An adjoining property located at 126 Reservoir Road is listed on the FINDS/FRS, TRIS, ICIS, and SPILLS databases. However, based on regulatory status and operational condition, the listing is not expected to impact the Site and therefore does not represent a potential REC.

5.4 *Unplottable Summary*

The ERIS Database Report identified fourteen (14) unplottable sites on or near the Subject Property (Appendix 4). Unplottable sites are facilities with inadequate address information to map correctly. Following review, based on regulatory status and/or distance, the unplottable sites do not represent RECs.

6.0 HISTORICAL USE INFORMATION

6.1 *Ownership Information*

Ownership information for the Subject Property is detailed in Appendix 2.

6.2 *Aerial Photographs*

Historical aerial photographs were obtained from ERIS with Google Earth historical imagery also being utilized for further analysis of the Subject Property (Appendix 5). The Subject Property and its adjoining properties have historically consisted of undeveloped/silvicultural woodlands and agricultural fields along with private residences and farms. No RECs were identified for the Site and adjoining properties through review of the historical aerial imagery.

6.3 *Historical Topographic Maps*

Historical topographic maps were obtained from ERIS (Appendix 6). The Subject Property and adjoining properties have historically consisted of undeveloped forestland and agricultural fields with several residences and farm buildings. No RECs were identified for the Site and adjoining properties through review of the historical topographic maps.

6.4 *Environmental Lien Search*

No environmental liens or activity use limitations were identified for the Subject Property (Appendix 7).

6.5 *Previous Reports*

Timmons Group previously completed a Phase I ESA, dated May 11, 2007, with a follow-up Phase II ESA, dated August 17, 2007, for a portion of the Subject Property based on proximity to the bordering railroad tracks which were identified as a REC. The results of the Phase II ESA concluded that the bordering railroad tracks had not impacted the Subject Property. In recent times, Timmons Group completed a Phase I ESA for the Site dated August 2, 2007. The results of the Phase I ESA identified no RECs for the Subject Property or adjoining properties.

7.0 USER'S RESPONSIBILITIES

In order to qualify for Landowner Liability Protections under CERCLA, the User must provide certain information to the environmental professional pursuant to Section 6 of ASTM Standard E 2247-16. Failure to provide this information could result in the determination that the "all appropriate inquiry" is not complete and, therefore, the forfeiture of CERCLA protection. The ASTM Standard 2247-16 User Questionnaire was completed by Len Dillon (Appendix 8), and the information recited in them is incorporated herein by reference.

8.0 INTERVIEWS

The ASTM Standard E 2247-16 Property Owner Questionnaire was completed by Len Dillon whom did not identify any compromising environmental conditions on the Subject Property (Appendix 8).

Chase Farnsworth IV of Timmons Group attempted to contact the Henry County Fire Department, via e-mail on September 26, 2019, to request Henry County records and obtain information on any RECs in connection with the Subject Property. As of completion of this Phase I ESA, a response has not been received. If a response is received in the future and the results alter the conclusions of this report, an addendum will be prepared.

9.0 CONCLUSIONS

9.1 Findings

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E 2247 of approximately 726 acres located off Spencer Road and Reservoir Road in Henry County, Virginia, and Rockingham County, North Carolina, the Subject Property. Any exceptions to, or deletions from, this practice are described in Sections 1.2 and 1.3 of this report. This assessment has revealed no evidence of RECs in connection with the Subject Property or the adjoining properties.

9.2 Data Gaps

No significant data gaps were encountered during the completion of this Phase I ESA.

9.3 Opinions and Additional Investigation

Following a review of reasonably accessible federal and state environmental regulatory records, standard historical resources, site reconnaissance, and interviews, Timmons Group recommends no further investigation of the Subject Property to satisfy due diligence requirements as required by ASTM Standard E 2247-16.

9.4 Recommendations

Timmons Group completed a Phase I ESA of approximately 726 acres located off Spencer Road and Reservoir Road in Henry County, Virginia, and Rockingham County, North Carolina. Based on the results, RECs were not identified for the Subject Property or adjoining properties as defined by ASTM Standard E 2247-16. Therefore, Timmons Group recommends no further action to meet due diligence requirements.

The ERIS **Physical Setting Report - PSR** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

Geologic Information

The previous page shows USGS geology information. Detailed information about each unit is provided below.

Geologic Unit [lw

Unit Name: Leatherwood Granite
Unit Age: Cambrian
Primary Rock Type: granite
Secondary Rock Type:
Unit Description: Leatherwood Granite - Granite

Geologic Unit [ra

Unit Name: Rich Acres Formation
Unit Age: Cambrian
Primary Rock Type: norite
Secondary Rock Type: gabbro
Unit Description: Rich Acres Formation - Norite, metagabbro, and diorite.

Geologic Unit [Zba

Unit Name: Bassett Formation - Amphibolite.
Unit Age: Proterozoic Z-Cambrian
Primary Rock Type: amphibolite
Secondary Rock Type: gneiss
Unit Description: Bassett Formation - Amphibolite.

Geologic Unit [Zfm

Unit Name: Fork Mountain Formation
Unit Age: Proterozoic Z-Cambrian
Primary Rock Type: mica schist
Secondary Rock Type: gneiss
Unit Description: Fork Mountain Formation - Quartzose mica schist, garnet-biotite gneiss, calc-silicate quartzite, and melange.

Geologic Unit CZms

Unit Name: Mica Schist
Unit Age: Cambrian/Late Proterozoic
Primary Rock Type: mica schist
Secondary Rock Type: quartzite
Unit Description: Mica Schist - Garnet, staurolite, kyanite, or sillimanite occur locally; lenses and layers of quartz schist, micaceous quartzite, calc-silicate rock, biotite gneiss, amphibolite, and phyllite.

Geologic Information

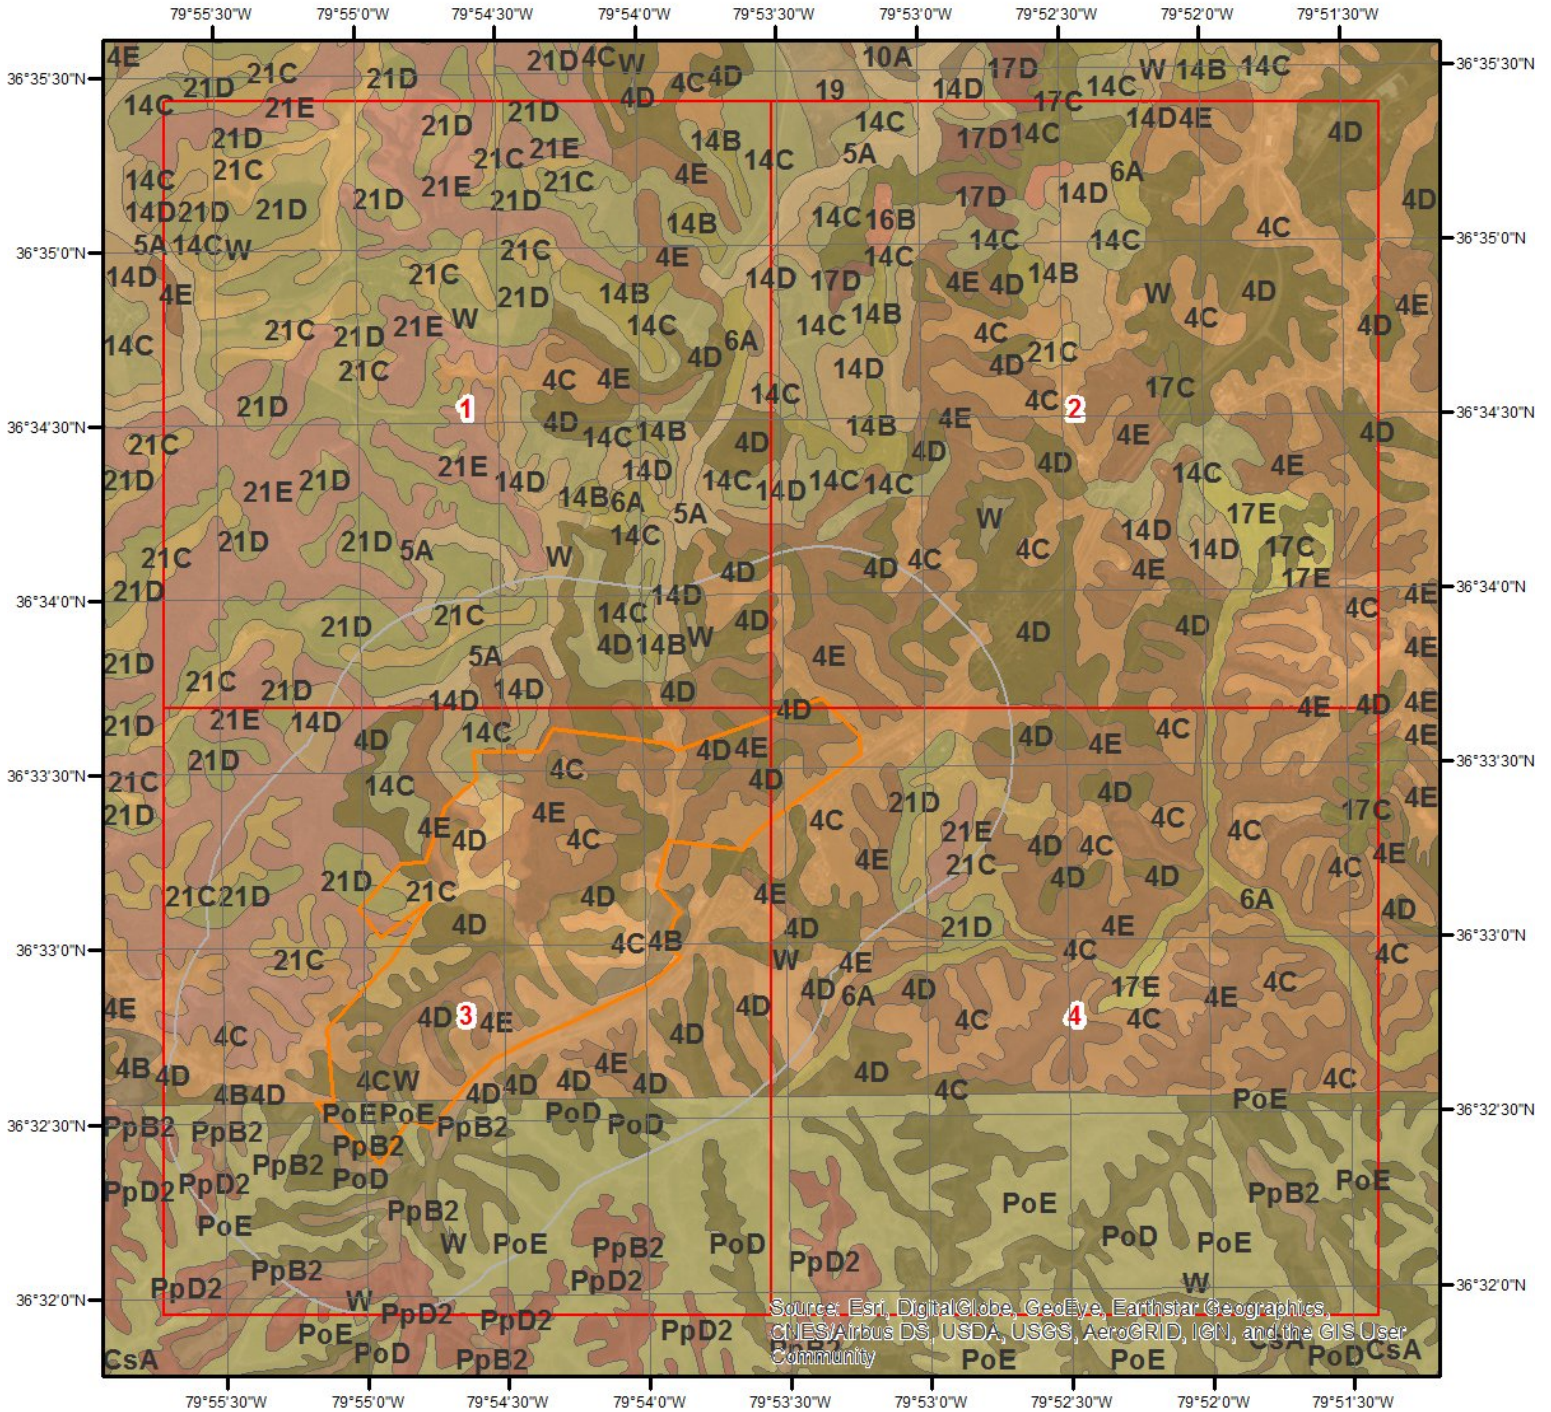

Geologic Unit water

Unit Name: Water
Unit Age: Holocene
Primary Rock Type: water
Secondary Rock Type:
Unit Description: Water

Geologic Unit Zbg

Unit Name: Bassett Formation - Biotite gneiss and granite gneiss.
Unit Age: Proterozoic Z
Primary Rock Type: biotite gneiss
Secondary Rock Type: granitic gneiss
Unit Description: Bassett Formation - Quartzofeldspathic biotite gneiss and granite gneiss.

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit 14B

Map Unit Name:	Minnieville loam, 2 to 7 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Minnieville(90%)	
horizon H1(0cm to 20cm)	Loam
horizon H2(20cm to 135cm)	Clay
horizon H3(135cm to 206cm)	Clay loam

Map Unit 14C

Map Unit Name:	Minnieville loam, 7 to 15 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Minnieville(90%)	
horizon H1(0cm to 20cm)	Loam
horizon H2(20cm to 135cm)	Clay
horizon H3(135cm to 206cm)	Clay loam

Map Unit 14D

Map Unit Name:	Minnieville loam, 15 to 25 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Minnieville(90%)	
horizon H1(0cm to 20cm)	Loam
horizon H2(20cm to 135cm)	Clay
horizon H3(135cm to 206cm)	Clay loam

Map Unit 21C

Soil Information

Map Unit Name: Woolwine-Clifford complex, 7 to 15 percent slopes
Bedrock Depth - Min: 71cm
Watertable Depth - Annual Min: null
Drainage Class - Dominant: Well drained
Hydrologic Group - Dominant: C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Woolwine(55%)

horizon H1(0cm to 5cm)	Sandy loam
horizon H2(5cm to 71cm)	Clay
horizon H3(71cm to 107cm)	Bedrock
horizon H4(107cm to 132cm)	Bedrock

Clifford(40%)

horizon H1(0cm to 19cm)	Sandy loam
horizon H2(19cm to 137cm)	Clay
horizon H3(137cm to 157cm)	Clay loam
horizon H4(157cm to 208cm)	Fine sandy loam

Map Unit 21D

Map Unit Name: Woolwine-Clifford complex, 15 to 25 percent slopes
Bedrock Depth - Min: 71cm
Watertable Depth - Annual Min: null
Drainage Class - Dominant: Well drained
Hydrologic Group - Dominant: C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Woolwine(55%)

horizon H1(0cm to 5cm)	Sandy loam
horizon H2(5cm to 71cm)	Clay
horizon H3(71cm to 107cm)	Bedrock
horizon H4(107cm to 132cm)	Bedrock

Clifford(40%)

horizon H1(0cm to 19cm)	Sandy loam
horizon H2(19cm to 137cm)	Clay
horizon H3(137cm to 157cm)	Clay loam
horizon H4(157cm to 208cm)	Fine sandy loam

Map Unit 21E

Map Unit Name: Woolwine-Clifford complex, 25 to 45 percent slopes
Bedrock Depth - Min: 71cm
Watertable Depth - Annual Min: null
Drainage Class - Dominant: Well drained
Hydrologic Group - Dominant: C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Woolwine(55%)

horizon H1(0cm to 5cm)	Sandy loam
------------------------	------------

Soil Information

horizon H2(5cm to 71cm)	Clay
horizon H3(71cm to 107cm)	Bedrock
horizon H4(107cm to 132cm)	Bedrock
Clifford(40%)	
horizon H1(0cm to 19cm)	Sandy loam
horizon H2(19cm to 137cm)	Clay
horizon H3(137cm to 157cm)	Clay loam
horizon H4(157cm to 208cm)	Fine sandy loam

Map Unit 4B

Map Unit Name:	Clifford sandy loam, 2 to 7 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Clifford(90%)	
horizon H1(0cm to 19cm)	Sandy loam
horizon H2(19cm to 137cm)	Clay
horizon H3(137cm to 157cm)	Clay loam
horizon H4(157cm to 208cm)	Fine sandy loam

Map Unit 4C

Map Unit Name:	Clifford sandy loam, 7 to 15 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Clifford(90%)	
horizon H1(0cm to 19cm)	Sandy loam
horizon H2(19cm to 137cm)	Clay
horizon H3(137cm to 157cm)	Clay loam
horizon H4(157cm to 208cm)	Fine sandy loam

Map Unit 4D

Map Unit Name:	Clifford sandy loam, 15 to 25 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Clifford(90%)	

Soil Information

horizon H1(0cm to 19cm)	Sandy loam
horizon H2(19cm to 137cm)	Clay
horizon H3(137cm to 157cm)	Clay loam
horizon H4(157cm to 208cm)	Fine sandy loam

Map Unit 4E

Map Unit Name:	Clifford sandy loam, 25 to 45 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Clifford(90%)	
horizon H1(0cm to 19cm)	Sandy loam
horizon H2(19cm to 137cm)	Clay
horizon H3(137cm to 157cm)	Clay loam
horizon H4(157cm to 208cm)	Fine sandy loam

Map Unit 5A

Map Unit Name:	Codorus loam, 0 to 2 percent slopes, frequently flooded
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	46cm
Drainage Class - Dominant:	Moderately well drained
Hydrologic Group - Dominant:	B/D - These soils have moderately low runoff potential when drained and high runoff potential when undrained.
Major components are printed below	
Codorus(85%)	
horizon H1(0cm to 20cm)	Loam
horizon H2(20cm to 119cm)	Loam
horizon H3(119cm to 157cm)	Loam

Map Unit PoD

Map Unit Name:	Poplar Forest sandy loam, 8 to 15 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Poplar Forest(100%)	
horizon Ap(0cm to 13cm)	Sandy loam
horizon Bt(13cm to 74cm)	Clay
horizon BC(74cm to 86cm)	Clay loam
horizon C(86cm to 203cm)	Sandy loam

Soil Information

Map Unit PoE

Map Unit Name:	Poplar Forest sandy loam, 15 to 35 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.

Major components are printed below

Poplar Forest(80%)	
horizon Ap(0cm to 8cm)	Sandy loam
horizon E(8cm to 20cm)	Sandy loam
horizon Bt1(20cm to 64cm)	Clay
horizon Bt2(64cm to 79cm)	Clay loam
horizon C(79cm to 203cm)	Sandy loam

Map Unit PpB2

Map Unit Name:	Poplar Forest sandy clay loam, 2 to 8 percent slopes, moderately eroded
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.

Major components are printed below

Poplar Forest(85%)	
horizon Ap(0cm to 15cm)	Sandy clay loam
horizon Bt(15cm to 66cm)	Clay
horizon BC(66cm to 86cm)	Sandy clay loam
horizon C(86cm to 203cm)	Loam

Map Unit PpD2

Map Unit Name:	Poplar Forest sandy clay loam, 8 to 15 percent slopes, moderately eroded
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.

Major components are printed below

Poplar Forest(85%)	
horizon Ap(0cm to 15cm)	Sandy clay loam
horizon Bt(15cm to 66cm)	Clay
horizon BC(66cm to 94cm)	Clay loam
horizon C(94cm to 203cm)	Loam

Radon Information

This section lists any relevant radon information found for the target property.

No Radon Zone Level records found for the project property or surrounding properties.

Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L

Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L

Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L

No Indoor Radon Data records found for the project property or surrounding properties.

Federal Sources

FEMA National Flood Hazard Layer

FEMA FLOOD

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data

INDOOR RADON

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data

PWSV

List of drinking water violations and enforcement actions from the Safe Drinking Water Information System (SDWIS) made available by the Drinking Water Protection Division of the US EPA's Office of Groundwater and Drinking Water. Enforcement sensitive actions are not included in the data released by the EPA. Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level

RADON ZONE

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS)

SDWIS

The Safe Drinking Water Information System (SDWIS) contains information about public water systems as reported to US Environmental Protection Agency (EPA) by the states. Addresses may correspond with the location of the water system, or with a contact address.

Soil Survey Geographic database

SSURGO

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

U.S. Fish & Wildlife Service Wetland Data

US WETLAND

The U.S. Fish & Wildlife Service Wetland layer represents the approximate location and type of wetlands and deepwater habitats in the United States.

USGS Current Topo

US TOPO

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology

US GEOLOGY

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System

FED USGS

The U.S. Geological Survey (USGS)'s National Water Information System (NWIS) is the nation's principal repository of water resources data. This database includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data.

State Sources

Oil and Gas Wells

OGW

Oil and Gas Wells Data made available by Virginia Department of Mines Minerals and Energy maintained

Appendix

by the Division of Gas and Oil Data Information Systems.

Public Water Supply Wells

PWSW

The Public Wells data is provided by the Virginia Department of Health's Office of Drinking Water.

Liability Notice

Reliance on information in Report: The Physical Setting Report (PSR) DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a review of environmental databases and physical characteristics for the site or adjacent properties.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS Information Inc. disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report(s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Executive Summary

Property Information:

Project Property: CBCC
Reservoir Road Ridgeway VA 24148

Project No:

Coordinates:

Latitude: 36.552152
Longitude: -79.905685
UTM Northing: 4,045,750.04
UTM Easting: 597,937.62
UTM Zone: UTM Zone 17S

Elevation: 818 FT

Order Information:

Order No: 20190919147
Date Requested: September 19, 2019
Requested by: Timmons Group, Inc.
Report Type: Database Report

DRIVER TRAVIS RELIFORD MADE A PICK-UP AT LOWES ON 220 SOUTH. HE PLACED THE PACKAGE ON THE SHELF AND DROVE DOWN THE HIGHWAY TO HIS NEXT STOP. THE SMELL OF KEROSENE CAUSED THE DRIVER TO STOP AT HARDEES ON 220 TO INVESTIGATE. HE NOTICED THAT A PACKAGE THAT WAS PICKED UP FROM LOWES HAD A PICTURE OF A KEROSENE HEATER ON IT AND IT APPEARED TO HAVE A LIQUID LEAKING FROM IT. THE DRIVER CALLED THE DANVILLE CENTER AND WAS TOLD BY CENTER MANAGER BOB CALLIHAN TO SECURE THE VEHICLE AND WAIT FOR A FIRST RESPONDER. FIRST RESPONDER MAC MCGEE DROVE A REPLACEMENT VEHICLE TO THE DRIVER AND PACKAGES WERE DOWNLOADED TO THE REPLACEMENT VEHICLE. DECISION TREE WAS FOLLOWED AND PROCEDURE FOR FLAMMABLE LIQUIDS WAS FOLLOWED. THE SHIPPER WAS CONTACTED AND THEY PICKED UP PACKAGE AND CONTENTS ON 6-11-97. SHIPPER WAS INFORMED OF HAZARDOUS MATERIALS LABELING ON THIS PACKAGE WAS INCORRECT--THAT HAZARDOUS MATERIAL PACKAGES MUST HAVE PROPER LABELING.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

National Priority List:

NPL

National Priorities List (Superfund)-NPL: EPA's (United States Environmental Protection Agency) list of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action.

Government Publication Date: Jun 11, 2019

National Priority List - Proposed:

PROPOSED NPL

Includes sites proposed (by the EPA, the state, or concerned citizens) for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment.

Government Publication Date: Jun 11, 2019

Deleted NPL:

DELETED NPL

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Government Publication Date: Jun 11, 2019

SEMS List 8R Active Site Inventory:

SEMS

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

Government Publication Date: Jun 11, 2019

SEMS List 8R Archive Sites:

SEMS ARCHIVE

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

Government Publication Date: Jun 11, 2019

Inventory of Open Dumps, June 1985:

ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

EPA Report on the Status of Open Dumps on Indian Lands:

[IODI](#)

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

Comprehensive Environmental Response, Compensation and Liability Information System -

[CERCLIS](#)

CERCLIS:

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

CERCLIS - No Further Remedial Action Planned:

[CERCLIS NFRAP](#)

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens:

[CERCLIS LIENS](#)

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action:

[RCRA CORRACTS](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Jun 3, 2019

RCRA non-CORRACTS TSD Facilities:

[RCRA TSD](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

Government Publication Date: Jun 3, 2019

RCRA Generator List:

[RCRA LQG](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Jun 3, 2019

RCRA Small Quantity Generators List:

[RCRA SQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Jun 3, 2019

RCRA Conditionally Exempt and Very Small Quantity Generators List:

[RCRA CESQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Conditionally Exempt and Very Small Quantity Generators (VSQG and CESQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG and CESQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: Jun 3, 2019

RCRA Non-Generators:

[RCRA NON GEN](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Jun 3, 2019

Federal Engineering Controls-ECs:

[FED ENG](#)

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Sep 20, 2018

Federal Institutional Controls- ICs:

[FED INST](#)

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

Government Publication Date: Sep 20, 2018

Emergency Response Notification System:

[ERNS 1982 TO 1986](#)

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System:

[ERNS 1987 TO 1989](#)

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System:

[ERNS](#)

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Mar 21, 2019

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:

[FED BROWNFIELDS](#)

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 11, 2019

FEMA Underground Storage Tank Listing:

[FEMA UST](#)

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Petroleum Refineries:

REFN

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

Government Publication Date: Jul 17, 2018

Petroleum Product and Crude Oil Rail Terminals:

BULK TERMINAL

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

Government Publication Date: Jan 18, 2019

LIEN on Property:

SEMS LIEN

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

Government Publication Date: Jun 11, 2019

Superfund Decision Documents:

SUPERFUND ROD

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

Government Publication Date: Aug 20, 2019

State

Solid Waste Landfills:

SWF/LF

The solid waste program in the Department of Environmental Quality (DEQ) is designed to encourage the reuse and recycling of solid waste and to regulate the disposal and treatment of solid waste, including regulated medical waste, and to ensure that hazardous waste is properly managed. Standards are designed to protect human health and the environment and driven by regulatory requirements.

Government Publication Date: Mar 13, 2019

Leaking Petroleum Storage Tanks:

LST

When a release occurs from an aboveground or underground storage tank, the owner and/or operator of the tank is required to report the release to the Department of Environmental Quality (DEQ). This database contains a listing of releases from tanks both above and underground.

Government Publication Date: Jul 30, 2019

Delisted Leaking Petroleum Storage Tanks:

DELISTED LST

Facilities which have been removed from the list of leaking petroleum storage tanks made available by the Virginia Department of Environmental Quality (DEQ). Facilities may be removed from the lists of leaking petroleum tanks when it is determined that the release reported is not an actual release, or the released substance is not petroleum - these sites may still have endured non-petroleum hazardous substance releases.

Government Publication Date: Jul 30, 2019

Underground Storage Tanks:

UST

A listing of registered underground storage tanks. This list is maintained by The Department of Environmental Quality (DEQ).

Government Publication Date: Jul 30, 2019

Aboveground Storage Tanks:

AST

A listing of registered aboveground storage tanks. This list is maintained by The Department of Environmental Quality (DEQ).

Government Publication Date: Jul 30, 2019

Delisted Tanks:

DELISTED TANK

Facilities which have been removed from the list of registered aboveground and/or underground storage tanks made available by the Virginia Department of Environmental Quality (DEQ). Facilities may be removed from the lists of registered tanks when it is determined that the tank does not require registration, for example, due to capacity or contents.

Government Publication Date: Jul 30, 2019

Institutional Controls:

INST

Institutional controls are legal or contractual restrictions on property use that remain effective after remediation is completed and are used to satisfy remediation levels. This list is maintained by the Department of Environmental Quality (DEQ).

Government Publication Date: Jul 16, 2019

Voluntary Remediation Program:

VRP

The Voluntary Remediation Program is to encourage hazardous substance cleanups that might not otherwise take place. The program is a streamlined mechanism for site owners or operators to voluntarily address contamination at sites with concurrence from the Department of Environmental Quality (DEQ).

Government Publication Date: Jul 16, 2019

Brownfields Site Specific Assessments:

BROWNFIELDS

Brownfields are idled, underutilized, or abandoned industrial or commercial properties where expansion or redevelopment is complicated by real or perceived environmental contamination. Examples include factories, railyards, landfills, dry cleaners, etc. This list is maintained by the Department of Environmental Quality (DEQ).

Government Publication Date: Jan 10, 2019

Tribal

Leaking Underground Storage Tanks (LUSTs) on Tribal/Indian Lands:

INDIAN LUST

Leaking Underground Storage Tanks (LUSTs) on Tribal/Indian Lands in EPA Region 3, which includes Virginia. There are no LUST records in Virginia at this time.

Government Publication Date: May 4, 2018

Underground Storage Tanks (USTs) on Indian Lands:

INDIAN UST

Listing of Underground Storage Tanks (USTs) on Tribal/Indian Lands in EPA Region 3, which includes Virginia. There are no UST records in Virginia at this time.

Government Publication Date: May 4, 2018

Delisted Tribal Leaking Storage Tanks:

DELISTED ILST

Leaking Underground Storage Tank facilities which have been removed from the Regional Tribal LUST lists made available by the EPA.

Government Publication Date: Oct 14, 2017

Delisted Tribal Underground Storage Tanks:

DELISTED IUST

Underground Storage Tank facilities which have been removed from the Regional Tribal UST lists made available by the EPA.

Government Publication Date: Oct 14, 2017

County

No County standard environmental record sources available for this State.

Additional Environmental Record Sources

Federal

PFOA/PFOS Contaminated Sites:

PFAS NPL

List of sites where PFOA or PFOS contaminants have been found in drinking water or soil. Made available by the Federal Environmental Protection Agency (EPA).

Government Publication Date: Nov 15, 2018

Facility Registry Service/Facility Index:

FINDS/FRS

The US Environmental Protection Agency (EPA)'s Facility Registry System (FRS) is a centrally managed database that identifies facilities, sites or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, data collected from EPA's Central Data Exchange registrations and data management personnel.

Government Publication Date: Apr 23, 2019

Toxics Release Inventory (TRI) Program:

TRIS

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Dec 31, 2017

Perfluorinated Alkyl Substances (PFAS) Releases:

PFAS TRI

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a Per- or polyfluorinated alkyl substance (PFAS) included in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances. The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment.

Government Publication Date: Dec 31, 2017

Hazardous Materials Information Reporting System:

HMIRS

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: Jan 8, 2019

National Clandestine Drug Labs:

NCDL

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Jul 18, 2018

Toxic Substances Control Act:

TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Jun 30, 2017

Hist TSCA:

HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing:

FTTS ADMIN

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing:

FTTS INSP

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Potentially Responsible Parties List:

PRP

Early in the cleanup process, the Environmental Protection Agency (EPA) conducts a search to find the potentially responsible parties (PRPs). EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site.

Government Publication Date: Jun 11, 2019

State Coalition for Remediation of Drycleaners Listing:

SCRD DRYCLEANER

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS):

ICIS

The Integrated Compliance Information System (ICIS) is a system that provides information for the Federal Enforcement and Compliance (FE&C) and the National Pollutant Discharge Elimination System (NPDES) programs. The FE&C component supports the Environmental Protection Agency's (EPA) Civil Enforcement and Compliance program activities. These activities include Compliance Assistance, Compliance Monitoring and Enforcement. The NPDES program supports tracking of NPDES permits, limits, discharge monitoring data and other program reports.

Government Publication Date: Nov 18, 2016

Drycleaner Facilities:

FED DRYCLEANERS

A list of drycleaner facilities from the Integrated Compliance Information System (ICIS). The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: May 29, 2018

Delisted Drycleaner Facilities:

DELISTED FED DRY

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: May 29, 2018

Formerly Used Defense Sites:

FUDS

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

Government Publication Date: Oct 23, 2018

Material Licensing Tracking System (MLTS):

MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: Nov 1, 2018

Historic Material Licensing Tracking System (MLTS) sites:

HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File:

MINES

The Master Index File (MIF) contains mine identification numbers issued by the Department of Labor Mine Safety and Health Administration (MSHA) for mines active or opened since 1971. Note that addresses may or may not correspond with the physical location of the mine itself.

Government Publication Date: May 3, 2019

Alternative Fueling Stations:

ALT FUELS

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

Government Publication Date: Jun 26, 2019

Registered Pesticide Establishments:

[SSTS](#)

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

Government Publication Date: Sep 1, 2018

Polychlorinated Biphenyl (PCB) Notifiers:

[PCB](#)

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Mar 20, 2019

State

Spills:

[SPILLS](#)

The Department of Environmental Quality (DEQ) Pollution Response Program (PREP), provides for responses to air, water and waste pollution incidents in order to protect human health and the environment. PREP staff often work to assist local emergency responders, other state agencies, federal agencies, and responsible parties, as may be needed, to manage pollution incidents. Oil spills, fish kills, and hazardous materials spills are examples of incidents that may involve the DEQ's PREP Program.

Government Publication Date: Jul 4, 2019

Pollution Complaint:

[PC SPILLS](#)

The database contains a listing of Pollution Complaints from 1986 to 1994 that include petroleum releases and other releases on state land and waters. This list is maintained by the Department of Environmental Quality (DEQ).

Government Publication Date: 1986-1994

Dry Cleaning Facilities:

[DRYCLEANERS](#)

A listing of registered drycleaners maintained by the Department of Environmental Quality.

Government Publication Date: Jun 20, 2019

Tribal

No Tribal additional environmental record sources available for this State.

County

No County additional environmental record sources available for this State.

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

ERIS Topographic Maps

TOPOGRAPHIC MAPS

Project Property: CBCC
Reservoir Road
Ridgeway VA 24148

Requested By:

Order No: 20190919147

Date Completed: September 19, 2019

We have searched USGS collections of current topographic maps and historical topographic maps for the project property. Below is a list of maps found for the project property and adjacent area. Maps are from 7.5 and 15 minute topographic map series, if available.

Year	Map Series
2016	7.5
1982	7.5
1964	7.5
1944	15
1927	15
1926	15
1924	15

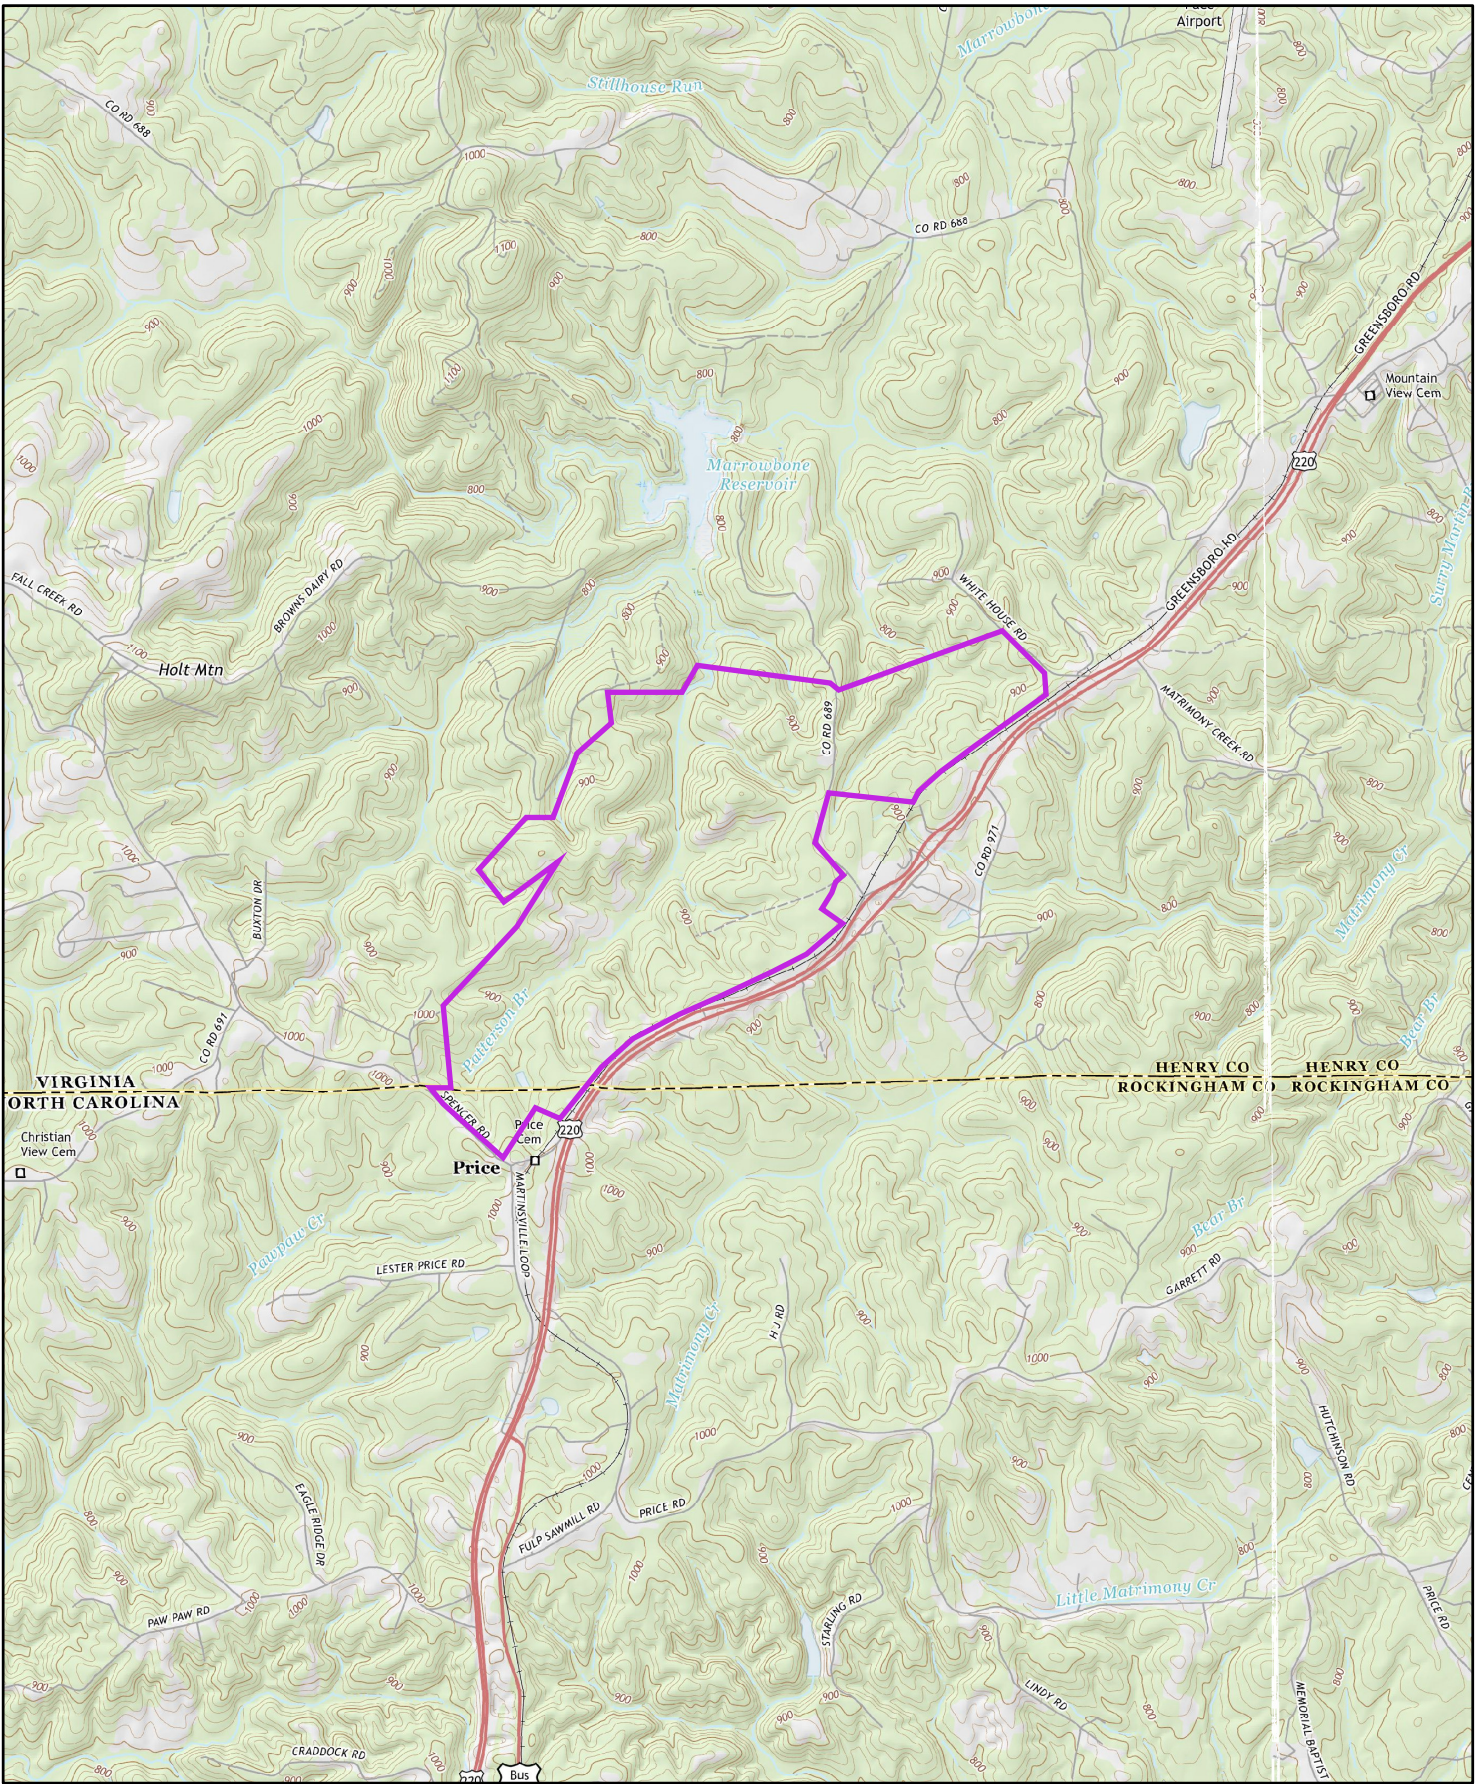

Topographic Maps included in this report are produced by the USGS and are to be used for research purposes including a phase I report. Maps are not to be resold as commercial property.

ERIS Environmental Lien Search

ERIS
ENVIRONMENTAL RISK INFORMATION SERVICES

ENVIRONMENTAL
LIEN SEARCH

Project Property: RESERVOIR ROAD
RIDGEWAY, VA 24148
Order No: 20190919147
Date Completed: 09/26/2019

The following is the current property legal description (See deed for full legal description):

PRICE ESTATE LOT 32R

Assessor's Parcel Number(s): 213190012

ENVIRONMENTAL LIEN REPORT

Order No: 20190919147

The ERIS Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied property information to:

- Search for parcel information and / or legal description
- Search for ownership information
- Research official land title documents recorded at jurisdictional agencies such as recorder's' office, registries of deeds, county clerks' offices, etc.
- Access a copy of the deed
- Search for environmental encumbrance(s) associate with the deed
- Provide a copy of any environmental encumbrance(s) based upon a review of keywords in the instrument(s) (title, parties involved and description)
- Provide a copy of the deed or cite documents reviewed

Thank You for Your Business

Please contact ERIS at **416-510-5204** or **info@erisinfo.com**
with any questions or comments

LIMITATION

This report is neither a guarantee of title, a commitment to insure, or a policy of title insurance. ERIS – Environmental Risk Information Services does not guarantee nor include any warranty of any kind whether expressed or implied, about the validity of all information included in this report since this information is retrieved as it is recorded from various agencies that make it available. The total liability is limited to the fee paid for this report.

ENVIRONMENTAL LIEN REPORT

Order No: 20190919147

The ERIS Environmental Lien Search Report is intended to assist in the search for environmental liens filed in land title records.

THE INDUSTRIAL DEVELOPMENT
AUTHORITY OF HENRY COUNTY, VIRGINIA

FROM: DEED

THIS DEED WAS PREPARED BY
CHARLES M. AARON, ATTORNEY

ROMA REALTY, LLC,
A Virginia limited liability company,
BY JOHN W. HOLMES AND
C. WILLIAM VAUGHN,
ATTORNEYS-IN-FACT

THIS DEED made this 5th day of October, 2007, by and between **ROMA REALTY, LLC**, a Virginia limited liability company, by **JOHN W. HOLMES** and **C. WILLIAM VAUGHN**, attorneys-in-fact, party of the first part and Grantor herein, and **THE INDUSTRIAL DEVELOPMENT AUTHORITY OF HENRY COUNTY, VIRGINIA**, a political subdivision of the Commonwealth of Virginia, party of the second part and Grantee herein;

WHEREAS, by Option Agreement dated March 27, 2007, the Grantor granted to the Board of Supervisors of Henry County, Virginia, the option to acquire the herein below described property; and,

WHEREAS, the Board of Supervisors of Henry County has exercised said option and assigned its rights thereto to the Grantee herein; and,

WHEREAS, the Grantor has assigned to Investors Title Exchange Corporation all of its right, title and interest in and to the said Option Agreement and Contract formed by the

CHARLES M. AARON, P.L.C.
ATTORNEY AT LAW

OCT 16 2007 PG0117

exercise of said option and has been directed by Investors Title Exchange Corporation to transfer title to the herein below described property directly to Grantee

WITNESSETH:

NOW THEREFORE, for and in consideration of the sum of Ten Dollars (\$10.00), and other good and valuable consideration, cash in hand paid by the party of the second part unto the party of the first part, the receipt of which is hereby acknowledged, the party of the first part does hereby give, grant, bargain, sell and convey unto the said party of the second part and Grantee herein, in fee simple with General Warranty of title, all those certain lots or parcels of land together with the improvements thereon and appurtenances thereunto appertaining, situated on the North side of U. S. Route 220, Ridgeway District, Henry County, Virginia, being more particularly described as follows, to-wit:

PARCEL 1: All that certain lot or parcel of land situated on the North side of U.S. Route 220, Ridgeway District, Henry County, Virginia, containing **77.82 acres**, as shown on Record Plat for Eugene A. Eggleston and Sarah H. Eggleston, prepared by Marvin E. Scarce, C.L.S., dated November 3, 1972, recorded in the Henry County Circuit Court Clerk's Office in Deed Book 53, page 68; and,

PARCEL 2: All those certain lots or parcels of land situated on the North side of U.S. Route 220, Ridgeway District, Henry County, Virginia, being known and designated as Lots 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 46, 47, 48, 49, 50, 56, as shown on Plat of Survey for The Price Estate, surveyed jointly by Bakkum-DeLoach & Assoc. and William S. May, Jr., dated October 20, 1980, recorded in the aforesaid Clerk's Office in Map Book 75, page 71; and,

BEING the same property conveyed to Roma Realty, L.L.C., a Virginia limited liability company, by deed from Marilyn Stone Vaughn and Roy C. Stone, Jr., dated July 20, 1995, recorded in the aforesaid Clerk's Office in Deed Book 705, page 642, to which deed and map reference is here had for a more particular description of the property hereby conveyed.

Interviews

ENVIRONMENTAL QUESTIONNAIRE
(To be completed by the User as defined by ASTM E 2247-16)

Property Address: 129 Reservoir Road & Commonwealth Crossing Parkway

City: Ridgeway County: Henry County State: VA Zip: 24148

Legal Description: Tax Map 71.8 (10) 32R – DB L1100-02160 & Tax Map 70.9/83 – DB L0900-01181

Current Property Use: New Industrial Park – Commonwealth Crossing Business Centre

Occupied by Whom: Henry Co. Industrial Dev. Authority Phone: (276)634-4601

- 1. As defined by ASTM E 2247-16, a lien is a charge, security or encumbrance upon title to a property to secure the payment of a cost, damage, debt obligation or duty arising out of response actions, cleanup, or other remediation of hazardous substances or petroleum products upon a property including, but not limited to, liens imposed pursuant to CERCLA 42 USC §§ 9607(l) and 9607(r) and similar state or local laws. In accordance with ASTM E 2247-16 and 40 CFR 312, Timmons Group, through inquiry of the User, completed a lien search for the subject property.

Environmental Lien Information was provided: by the User through Timmons Group

- 2. Activity and Use Limitations (AULs) are legal or physical restrictions or limitations on the use of, or access to a site or facility: (1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil or groundwater on the property, or (2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment.

As the User, are you aware of any activity use limitations for the subject property? Yes No

If "yes", please explain in the spaces provided below:

- 3. The User must take into account their specialized knowledge of the subject property, the area surrounding the subject property, the conditions of adjoining properties, and any other experience relevant to the inquiry, for the purpose of identifying conditions indicative of releases or threatened releases of hazardous material at the subject property.

As the User of this ESA, do you have any specialized knowledge or experience related to the property or nearby properties? Yes No

(continued)

If "yes", please describe any specialized knowledge of the subject site in the spaces provided:

Norfolk Southern railroad borders southeastern property line along US 220. Chesapeake Custom Chemical Holdings, LLC borders part of the subject property.

4. The User must consider whether the purchase price of the subject property reasonably reflects the fair market value of the property. If the purchase price of the subject property does not reasonably reflect the fair market value of that property, the User should consider whether or not the differential in purchase price and fair market value is due to the presence of releases or threatened releases of hazardous substances.

Does the purchase price of the subject property reflect the fair market value? Yes No

If "no", does the price of the subject property reflect the occurrence of a release of hazardous material? If not please explain in the spaces below:

5. It is the responsibility of the User to convey any commonly known or reasonably ascertainable information regarding the subject property in identifying potential conditions indicative of releases or threatened releases.

As the User, are you aware of commonly known or reasonably ascertainable information about the property that would help an environmental professional to identify conditions indicative of releases or threatened releases? For example, as the User:

- a. Do you know the past use of the property?

Yes – Agriculture and Sport Shooting (Virginia-Carolina Sporting Club – No longer in business)

- b. Do you know of specific chemicals that are present or once were present at the property?

No

- c. Do you know of spills or other chemical releases that have taken place at the property?

No

- d. Do you know of any environmental cleanups that have taken place at the property?

No

(continued)

6. It is the responsibility of the User to convey any degree of obvious information that represents the detection of a release or threatened release of a hazardous substance at, in, on or to the subject property.

As the User of this ESA, based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?
 Yes No

If "yes", please explain in the spaces below:

Norfolk Southern Railroad

In addition, certain information should be collected, if available, and provided to the environmental professional selected to conduct the Phase I. This information is intended to assist the environmental professional but is not necessarily required to qualify for one of the *LLPs*. The information includes:

- the reason why the Phase I is required,
- the type of property and type of property transaction, for example, sale, purchase, exchange, and so forth,
- the complete and correct address for the property (a map or other documentation showing property location and boundaries is helpful),
- the scope of services desired for the Phase I (including whether any parties to the property transaction may have a required standard scope of services on whether any considerations beyond the requirements of Practice E 2247 are to be considered),
- identification of all parties who will rely on the Phase I report,
- identification of the site contact and how the contact can be reached,
- any special terms and conditions which must be agreed upon by the environmental professional,
- any other knowledge or experience with the property that may be pertinent to the environmental professional (for example, copies of any available prior environmental site assessment reports, documents, correspondence, and so forth, concerning the property and its environmental condition).

Please provide any comments to the above in the space below:

I certify that to the best of my knowledge the above statements and facts are true and correct. To the best of my knowledge no material facts have been suppressed or misstated.

User: Ken Hiller - Chairman Date: 9-20-2019

ENVIRONMENTAL QUESTIONNAIRE
(To be completed by the current property owner as defined by ASTM E 2247-16)

Property Address: 129 Reservoir Road & Commonwealth Crossing Parkway

City: Ridgeway County: Henry County State: VA Zip: 24148

Legal Description: Tax Map 71.8 (10) 32R – DB L1100-02160 & Tax Map 70.9/83 – DB L0900-01181

Current Property Use: New Industrial Park – Commonwealth Crossing Business Centre

Occupied by Whom: Henry Co. Industrial Dev. Authority Phone: (276)634-4601

1. To the best of your knowledge has the property or any adjoining property ever been used for an industrial or manufacturing use? Yes No Unknown

If yes, please identify and explain: Chesapeake Custom Chemical Holdings, LLC – 689 Reservoir Road

2. To the best of your knowledge has the property or any adjoining property been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility? Yes No Unknown

If yes, please identify and explain:

3. To the best of your knowledge have there ever been any damaged or discarded automotive or industrial batteries, pesticides, paints, or other chemicals stored on or used at the property? Yes No Unknown

If yes, please identify and explain:

4. To the best of your knowledge have there ever been any industrial drums or sacks of chemicals located at the property? Yes No Unknown

If yes, please identify and explain:

5. Has fill dirt been brought onto the property from any other site? Yes No Unknown

If yes, please identify and explain:

6. To the best of your knowledge have there ever been any pits, ponds, or lagoons located on the site? Yes No Unknown

If yes, please identify and explain: Agriculture/Recreational Private Pond

7. To the best of your knowledge, have there ever been any stained or discolored soils on the property? Yes No Unknown

If yes, please identify and explain:

8. To the best of your knowledge have there ever been any registered or unregistered storage tanks (above or below ground level) located on the property? Yes No Unknown

If yes, please identify and explain:

9. To the best of your knowledge have there ever been any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the property or adjacent to any structure located on the property? Yes No Unknown

If yes, please identify and explain:

10. To the best of your knowledge have there ever been any drains, flooring, or walls located within the facility that are stained by substances other than water or are emitting foul odors? Yes No Unknown

If yes, please identify and explain:

11. Has there ever been any type of well or non-public watering system located on the property? If so, have any contaminants been identified in the well or system that exceed guidelines applicable to the water system? Yes No Unknown

If yes, please identify and explain: Private Well – No Known Contaminants

12. Do you know of any past, threatened or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the property by any owner or occupant of the property? Yes No Unknown

If yes, please identify and explain:

13. Have you or any occupant of the property been informed of the past or current existence of hazardous substances or petroleum products or environmental violations with respect to the property or any facility located on the property? Yes No Unknown

If yes, please identify and explain:

14. Do you or any occupant have knowledge of any environmental site assessment of the property that indicated the presence of hazardous substances or petroleum products on, or contamination of the property, or recommended further assessment of the property? Yes No Unknown

If yes, please identify and explain:

15. Does the property discharge waste water on or adjacent to the property other than storm water into a sanitary sewer system? Yes No Unknown

If yes, please identify and explain:

16. To the best of your knowledge have any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries or any other waste materials been dumped above-grade, buried and/or burned on the property? Yes No Unknown

If yes, please identify and explain:

17. Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of polychlorinated biphenyls (PCBs)? Yes No Unknown

If yes, please identify and explain:

18. Are you aware of any prior environmental site assessments (Phase I or Phase II) that have been conducted on the property for any purpose? If so, please indicate the approximate date of the assessment or investigation and provide the location of the reports. Yes No Unknown

If yes, please identify and explain: Phase I – 5/11/07, Phase II – 8/17/07 & Phase I – 8/2/17

I certify that to the best of my knowledge the above statements and facts are true and correct. To the best of my knowledge no material facts have been suppressed or misstated.
